Clinical guideline development and implementation, using an integrated approach in, 113
Clinical guidelines, practice guidelines efficacy and implementation in HMOs, 119
Clinical practice, communication techniques for HMO physicians, 40
Clinical/outcomes research, preliminary development of a skin cancer detection questionnaire, 77
Community services, Group Health Cooperative's initiative, for 182
Community-based health promotion programs, Group Health Cooperative's initiative for, 182
Computer,
- "advice" aids in managing care of a population, 73
- a computerized radiology information system, 75
- first experiences in actual practice with InterPractice Systems, 61
- the development of a computerized information system for clinicians, 56

Computerized medical record, Group Health's first iteration of the, 67
Continuous quality improvement, a status report on shared decision-making programs, 176
Costs, utilization and costs of substance abuse services within The HMO Group, 28
Discharge program, evaluation of early newborns, 48
Effectiveness, prescribing for unlabeled indications, 44
Feedback of clinical performance information, 5
Gatekeepers,
- a crisis in confidence: physicians as, 3
- ethical considerations of the doctor as gatekeeper, 12

Geriatric care, in HMOs, 133
Geriatric Interest Group, Geriatric care in HMOs, 133
Group therapy, in an HMO, 127
Health care reform, 101
- a recurring nightmare, 174
- health care: a prescription for change, 20
- the primary care debate about, 105

Health Education, a physician's commitment enhances health promotion for, 139
Health incentive systems and risk rating, do physicians become sentinels or shepherds, 15
Health Maintenance Organization (HMOs)
- managed competition in, 25
- meeting the challenge of adolescent health care, 151
- a physician incentive compensation program in, 82
- decentralized pharmacists in, 136
- geriatric care in, 133
- group psychotherapy in, 127
- role in primary care, prevention, research and education in, 103
- traditional psychotherapy in, 122
- utilization and costs of substance abuse services within The HMO Group, 28

Health manpower, HMOs role in, 103
Health policy,
- health care reform, a recurring nightmare, 174
- managed competition, 25

Homeless health care, Group Health Cooperative's community services initiative, 182
Hospitalization, teens ambulatory care utilization patterns in, 157
Information systems, a computerized radiology, 75
Managed care,
- hospitalized teens ambulatory care utilization patterns, 157
- psychotherapists in the HMO using, 122

Management information systems,
- development of a computerized information system for clinicians, 56
- first experiences in actual practice with InterPractice Systems, 61

Managing and improving quality, feedback of clinical performance information, 5
Medical decision-making, a status report on shared decision-making programs, 176
Medical education, HMOs role in, 103
Medical ethics,
- doctor as gatekeeper, 12
- health incentive systems and risk rating, do physicians become sentinels or shepherds, 15

Medical record,
- development of a computerized information system for clinicians, 56
- first experiences in actual practice with InterPractice Systems, 61
- in pursuit of an electronic holy grail in a cost conscious era, 54

Mental health problems, hospitalized teens ambulatory care utilization patterns, 157
Mental health, adolescent, 164
Mental health, group psychotherapy in an HMO, 127
Mental health/substance abuse,
- group psychotherapy in an HMO, 127
- plan updates, 88
- psychotherapists in the HMO, 122
- utilization and costs of substance abuse services within The HMO Group, 28

Newborns, evaluation of early discharge program, 48
Off-label, prescribing for unlabeled indications, 44
Organization and delivery of services, HMOs role in, 103
Outcomes research, a status report on shared decision-making programs, 176
Patient adherence, communication techniques for HMO physicians, 40
Patient education, a status report on shared decision-making programs, 176
Patient Profile System, Group Health's first iteration of the automated medical record, 67
Performance improvement, feedback of clinical performance information, 5
Performance measurement, feedback of clinical performance information, 5
Pharmacists, decentralized practice in an HMO, 136
Physician/patient communication, techniques for, 40
Physician incentive compensation program, in a HMO, 82
Physicians' prescribing, for unlabeled indications, 44
Policy and practice,
- physician incentive compensation program in a staff model HMO, 82
- Group Health Cooperative's community services initiative, 182
- late registration for prenatal care in a high-risk population, 109
- prescribing for unlabeled indications, 44

Politics and the HMO,
- health care: a prescription for change, 20
- managed competition, 25

Practice guidelines, efficacy and implementation in, 119
Practice profiles, feedback of clinical performance information, 5
Practice style, psychotherapists in the HMO, 122
Pregnancy complications, caused by late registration for prenatal care in a high-risk population, 109
Pregnancy—high risk, late registration for prenatal care, 109
Prenatal care, late registration in a high-risk population, 109
Prevention, HMOs role in, 103
Preventive and chronic care, computer "advice" aids in managing care of a population, 73
Primary care utilization, hospitalized teens ambulatory care patterns, 157
Primary care,
- debate of, 101
- HMOs role in, 103

Provider contracting, workshop in, 186
Psychotherapist, in the HMO, 122
Psychotherapy, group psychotherapy in an HMO, 127
Quality management, feedback of clinical performance information, 5
Research, HMOs role in, 103
Risk rating and health incentive systems, do physicians become sentinels or shepherds, 15
Satisfaction with care, communication techniques for HMO physicians, 40
Service utilization, utilization and costs of substance abuse services within The HMO Group, 28
Skin cancer, preliminary development of a detection questionnaire, 77
Substance abuse, utilization and costs of substance abuse services within The HMO Group, 28
Technology assessment, an integrated approach using practice guidelines with alpha interferon and hepatitis B and C in, 113
Technology management,
- status report on shared decision-making programs, 176
- alpha interferon and hepatitis B and C an integrated approach using practice guidelines in, 113

The primary care debate, health care reform, 105
Total quality management, using practice guidelines with an integrated approach in, 113
Traditional psychotherapy, in the HMO, 122
Trauma, hospitalized teens ambulatory care utilization patterns, 157
Unapproved uses, prescribing for unlabeled indications, 44
Unlabeled indications, prescribing for 44
Utilization management: utilization of scarce resources, 35
Volunteer opportunities, Group Health Cooperative's community services initiative, 182
Weight management, Positive Moves, a teen program, 168
Youth,
- ambulatory care utilization patterns for hospitalized, 157
- Center Stage educational theatre, 162
- HEADS-SET, a tool for testing risk, 166
- meeting the challenge of adolescent health care in a group practice HMO, 151
- mental health consultation, 164
- multidisciplinary teen clinic focusing on care to young women, 170
- Positive Moves, teen weight management program, 168
- providing health care to teens in the '90s, 149
